This Product Highlights Sheet is an important document.

- It highlights the key terms and risks of this investment product and complements the Prospectus¹.
- It is important to read the Prospectus before deciding whether to purchase units in the product. If you do not have a copy, please contact us to ask for one.
- You should not invest in the product if you do not understand it or are not comfortable with the accompanying risks.
- If you wish to purchase the product, you will need to make an application in the manner set out in the Prospectus.

SINGAPORE INDEX FUND

 WHO IS THE PRODUCT SUITABLE FOR? The Fund is <u>only</u> suitable for investors who: seek medium to long term capital appreciation; seek an investment that tracks the component securities of the Straits Times Index ("STI")²; believe that the STI will increase in value; and are comfortable with the volatility and risks of an equity fund. 	Further Information Refer to <u>paragraph</u> <u>8.11</u> on page 11 of the Prospectus for further information on product suitability.		
KEY PRODUCT FEATURES			
 WHAT ARE YOU INVESTING IN? You are investing in a listed unit trust constituted in Singapore whose investment objective is to achieve medium to long term capital appreciation by investing in the component securities of the STI (which securities are listed on the SGX-ST). The STI is maintained by the Index Sponsors³ and represents the 			

PRODUCT SUITABILITY

¹ The Prospectus and application forms may be obtained on request, subject to availability, from the Distributing Agents or any other distributors appointed by the Managers from time to time, during their respective business hours.

² The STI is concentrated on the SGX-ST (which component securities may change from time to time).

³ The Units are not in any way sponsored, endorsed, sold, or promoted by the Index Sponsors, and the Index Sponsors bear no liability in connection with the administration, marketing or trading of

•	performance of the top 30 companies listed on the SGX-ST ranked by market capitalisation. The Fund does not aim to make regular distributions. Investors should further note that any distribution shall be automatically reinvested in further Units of the Fund by a deemed automatic distribution reinvestment mandate unless such mandate is withdrawn by the Holder upon giving the Managers written notice at least 30 days in advance. You should note that the Units are Excluded Investment Products.	
•	The Fund intends to employ a full replication strategy or similar strategy by investing all or substantially all its assets in the constituent securities of the STI, broadly in proportion to the respective weightings of the constituent securities in the STI. The Fund does not have a target industry or sector.	Refer to <u>paragraph</u> <u>8</u> on page 9 of the Prospectus for further information on the investment strategy of the product.
	Parties Involved	product.
WI • •	HO ARE YOU INVESTING WITH? The Managers are Singapore Consortium Investment Management Limited. The Trustee is HSBC Institutional Trust Services (Singapore) Limited. The Custodian is The Hongkong and Shanghai Banking Corporation Limited.	Refer to <u>paragraphs</u> 2, 3 and 4 on pages 2-7 of the Prospectus for further information on these entities.
	KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment:		Refer to <u>paragraph</u> <u>10</u> on page 13 of the Prospectus for further information on risks of the product.
	Market and Credit Risks	
•	 You are exposed to market risks associated with securities held by the Fund. Issuers whose securities make up the STI may have businesses and operations in various markets. Prices of such securities may be affected by changes in economic conditions, interest rates and the relevant market's perception of the securities, which may in turn affect the price of Units. Market prices for Units may be different from their Value. The market prices of Units listed on SGX-ST may trade above or below the Value of such Units and there is a risk that investors may not be able to buy or sell such Units at a price close to their Value. The Fund invests in stocks and other equity securities that historically have greater price volatility than bonds and other fixed income securities. This in turn may affect the value or volatility of the Fund. 	
	Liquidity Risks	
•	 The secondary market may be illiquid. Not all Units issued are listed on the SGX-ST. Unlisted Units may not be traded on the SGX-ST and may only be realised in 	

the Units. No warranty or representation or guarantee of any kind whatsoever relating to the STI or the Units is given by the Index Sponsors. SPH is entitled to all intellectual property rights in the STI.

 accordance with the realisation provisions in the Prospectus. Although you may apply to list your Units on the SGX-ST, s listing does not guarantee a liquid market for the Units. You r not be able to find a buyer on the SGX-ST when you wish to 	may	
your listed Units.		
Trading on the SGX-ST may be suspended.		
o You will not be able to purchase or sell Units on the SGX		
during any period that the SGX-ST suspends trading of the U		
Creation and redemption of Units may also be suspended in s	such	
an event. Product-Specific Risks		
 You are exposed to risks associated with an index tracking fu o The Fund is not actively managed by the Managers and seek 		
track the STI. The Managers do not attempt to select sto		
individually or to take defensive positions in declining mark		
Therefore, the Fund's Value is likely to be adversely affected		
any fall in the value of the STI.		
o Although the Fund seeks to track the STI, it may not be able	e to	
fully track the performance of the STI.	a	
o The component securities of the STI are made based on		
relevant index composition rules and eligibility criteria and reference to performance criteria or performance outlook.	by	
 The Fund may be delisted from the SGX-ST. 		
o The Fund may not be able to continue to meet the requirement	ents	
necessary to maintain listing of Units on the SGX-ST. The F		
may be terminated if Units are delisted from the SGX-ST.		
You are exposed to licensing risk.		
o The Fund may not be able to maintain the licence necessar		
use the STI. The Fund may be terminated if its licence to use		
STI is terminated or if the STI is no longer available	for	
benchmarking.		
 You are exposed to concentration risk. The Fund is exposed to the risk of investing in listed shares of a 	only	
 I he Fund is exposed to the risk of investing in listed shares of one country (i.e. shares of companies on the STI). Investmer 		
only one country may be subject to higher risk as it may be		
diversified than a global portfolio.		
Other risks to your investment include foreign exchange/curre	ncy	
risk, political risk, investment risk, operating cost risk, exception	onal	
market conditions risk, broker risk, counterparty risk and action	s of	
institutional investors.
