KEY PRODUCT FEATURES			
<ul> <li>WHAT ARE YOU INVESTING IN?</li> <li>You are investing in a listed unit trust constituted in Singapore whose investment objective is to achieve medium to long term capital appreciation by investing in the component securities of the STI (which securities are listed on the SGX-ST).</li> <li>The STI is maintained by the Index Sponsors <sup>3</sup> and represents the performance of the top 30 companies listed on the SGX-ST ranked by market capitalisation.</li> <li>The Fund does not aim to make regular distributions.</li> </ul>	Refer to the " <u>Investment</u> <u>Objective, Focus and</u> <u>Approach</u> " section of the Prospectus for further information on features of the product.		

<sup>&</sup>lt;sup>1</sup> The Prospectus and application forms may be obtained on request, subject to availability, from the Distributing Agents or any other distributors appointed by the Managers from time to time, during their respective business hours.

<sup>2</sup> The STI is concentrated on the SGX-ST (which component securities may change from time to time).

<sup>&</sup>lt;sup>3</sup> The Units are not in any way sponsored, endorsed, sold, or promoted by the Index Sponsors, and the Index Sponsors bear no liability in connection with the administration, marketing or trading of the Units. No warranty or representation or guarantee of any kind whatsoever relating to the STI or the Units is given by the Index Sponsors. SPH is entitled to all intellectual property rights in the STI.

• Investors should further note that any distribution shall be automatically	
reinvested in further Units of the Fund by a deemed automatic distribution reinvestment mandate unless such mandate is withdrawn by the Holder upon giving the Managers written notice at least 30 days in advance.You should note that the Units are Excluded Investment Products.	
<ul> <li>The Fund intends to employ a full replication strategy or similar strategy by investing all or substantially all its assets in the constituent securities of the STI, broadly in proportion to the respective weightings of the constituent securities in the STI.</li> <li>The Fund does not have a target industry or sector.</li> </ul>	Refer to the "Investment Objective, Focus and <u>Approach</u> " section of the Prospectus for further information on the investment strategy of the product.

The value of the Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment (including your principal invested): <u>Market and Credit Risks</u> You are exposed to market risks associated with securities held by the Fund. Issuers whose securities make up the STI may have businesses and operations in various markets. Prices of such securities may be affected by changes in economic conditions, interest rates and the relevant market's perception of the securities, which may in turn affect the price of Units. Market prices for Units may be different from their Value. The market prices of Units listed on SGX-ST may trade above or below the Value of such Units and there is a risk that investors may not be able to buy or sell such Units at a price close to their Value. You are exposed to equity risks. The Fund invests in stocks and other equity securities that historically have greater price volatility than bonds and other fixed income securities.
