PRODUCT SUITABILITY

WHO IS THE PRODUCT SUITABLE FOR?

- The Fund is only suitable for investors who:
 - seek medium to long term capital appreciation;
 - seek an investment that tracks the component securities of the STI;²
 - believe that the STI will increase in value; and
 - are comfortable with the volatility and risks of an equity fund.

Further Information
Refer to the "Product Suitability" section of the Prospectus for further information on product suitability.

KEY PRODUCT FEATURES

WHAT ARE YOU INVESTING IN?

- You are investing in a listed unit trust constituted in Singapore whose investment objective is to achieve medium to long term capital appreciation by investing in the component securities of the STI (which securities are listed on the SGX-ST).
- The STI is maintained by the Index Sponsors³ and represents the performance of the top 30 companies listed on the SGX-ST ranked by market capitalisation.
- Distributions (if any) will be determined at the Managers' absolute discretion

Refer to the "Investment Objective, Focus and Approach" section of the Prospectus for further information on features of the product.

¹ The Prospectus and application forms may be obtained on request, subject to availability, from the Distributing Agents or any other distributors appointed by the Managers from time to time, during their respective business hours.

² The STI is concentrated on the SGX-ST (which component securities may change from time to time).

³ The Units are not in any way sponsored, endorsed, sold, or promoted by the Index Sponsors, and the Index Sponsors bear no liability in connection with the administration, marketing or trading of the Units. No warranty or representation or guarantee of any kind whatsoever relating to the STI or the Units is given by the Index Sponsors. Straits Times, Straits Times Index, ST and STI are trademarks of SPH.

and will reduce the Value of the Fund. Any distribution will be automatically reinvested in further Units of the Fund by a deemed automatic distribution reinvestment mandate unless such mandate is withdrawn by the holder upon giving the Managers written notice at least 30 days in advance. The Units are Excluded Investment Products, which are Prescribed Capital Markets Products.	
Investment Strategy	
- The Fund intends to employ a full replication strategy or similar strategy by investing all or substantially all its assets in the constituent securities of the STI, broadly in proportion to the respective weightings of the constituent securities in the STI. - The Fund does not have a target industry or sector.	Refer to the " Investment Objective, Focus and Approach " section of the Prospectus for further information on the investment strategy of the product.
Parties Involved	
WHO ARE YOU INVESTING WITH? - The Managers are Singapore Consortium Investment Management Limited. - The Trustee is HSBC Institutional Trust Services (Singapore) Limited. - The Custodian is The Hongkong and Shanghai Banking Corporation Limited.	Refer to " The Managers ", " The Trustee " and " The Custodian " sections of the Prospectus for further information on the roles and responsibilities of these entities and what happens if they become insolvent.
KEY RISKS	
WHAT ARE THE KEY RISKS OF THIS INVESTMENT? The value of the Fund and its distributions (if any) may rise or fall. These risk factors may cause you to lose some or all of your investment (including your principal invested):	Refer to the " Risks " section of the Prospectus for further information on risks of the product.
Market and Credit Risks	
You are exposed to market risks associated with securities held by the Fund. - Issuers whose securities make up the STI may have businesses and operations in various markets. Prices of such securities may be affected by changes in economic conditions, interest rates and the relevant market's perception of the securities, which may in turn affect the price of Units. Market prices for Units may be different from their Value. - The market prices of Units listed on SGX-ST may trade above or below the Value of such Units and there is a risk that investors may not be able to buy or sell such Units at a price close to their Value. You are exposed to equity risks. - The Fund invests in stocks and other equity securities that historically have greater price volatility than bonds and other fixed income securities. This in turn may affect the value or volatility of the Fund.	
Liquidity Risks	
The secondary market may be illiquid. - Not all Units issued are listed on the SGX-ST. Unlisted Units may not be traded on the SGX-ST and may only be realised in accordance with the realisation provisions in the Prospectus. - Although you may apply to list your Units on the SGX-ST, such listing does	

not guarantee a liquid market for the Units. You may not be able to find a buyer on the SGX-ST when you wish to sell your listed Units.								
Trading on the SGX-ST may be suspended. You will not be able to purchase or sell Units on the SGX-ST during any period that the SGX-ST suspends trading of the Units. Creation and redemption of Units may also be suspended in such an event.								
Product-Specific Risks								
You are exposed to risks associated with an index tracking fund. - The Fund is not actively managed by the Managers and seeks to track the STI. The Managers do not attempt to select stocks individually or to take defensive positions in declining markets. Therefore, the Fund's Value is likely to be adversely affected by any fall in the value of the STI. - Although the Fund seeks to track the STI, it may not be able to fully track the performance of the STI. - The component securities of the STI are made based on the relevant index composition rules and eligibility criteria and by reference to performance criteria or performance outlook. The STI does not consider Environmental, Social and Governance (ESG) factors and sustainability risk. The Fund may be delisted from the SGX-ST. - The Fund may not be able to continue to meet the requirements necessary to maintain listing of Units on the SGX-ST. The Fund may be terminated if Units are delisted from the SGX-ST. You are exposed to licensing risk. - The Fund may not be able to maintain the licence necessary to use the STI. The Fund may be terminated if its licence to use the STI is terminated or if the STI is no longer available for benchmarking. You are exposed to concentration risk. - The Fund is exposed to the risk of investing in listed shares of only one country (i.e. shares of companies on the STI). Investment in only one country may be subject to higher risk as it may be less diversified than a global portfolio. - If market dominance exists, as reflected in the index composition that the Fund tracks, the Fund may have a higher concentration of investment in certain dominant issuer(s) and it may be more susceptible to changes affecting that company or those companies. Other risks to your investment include foreign exchange/currency risk, political risk, investment risk, operating cost risk, exceptional market conditions risk, broker risk, counterparty risk and actions of institutional investors.								
FEES AND CHARGES								
WHAT ARE THE FEES AND CHARGES OF THIS INVESTMENT? <u>Payable directly by you</u> <table><tr><td>Preliminary charge (on gross investment amount)</td><td>Currently 2%; maximum 5%.</td></tr><tr><td>Realisation charge (on gross realisation proceeds)</td><td>Currently nil; maximum 2%.</td></tr></table> You should refer to your broker for the fees and charges payable by you if you deal or trade in the Units on the SGX-ST. VALUATIONS AND EXITING FROM THIS INVESTMENT											
HOW OFTEN ARE VALUATIONS AVAILABLE? The Fund will be valued on each Dealing Day. The indicative prices of the Units are quoted on a forward pricing basis and are available from the Managers' website at www.sicim.com.sg. The actual prices quoted will generally be published after the close of business on the Business Day following the relevant Dealing Day in Singapore Dollars. The market prices of Units which are listed on the SGX-ST (which may not be equal to the Value of the Fund) may be obtained from the SGX-ST's website at www.sgx.com. HOW CAN YOU EXIT FROM THIS INVESTMENT AND WHAT ARE THE RISKS AND COSTS IN DOING SO? - You can exit the Fund on any Dealing Day by submitting a realisation form to the Managers or through the relevant Distributing Agent through whom you originally purchased Units. - You will normally receive the realisation proceeds within 6 Business Days from the Dealing Day on which your realisation form is received and accepted. - Your realisation price is determined as follows: - If you submit the realisation form by 3pm Singapore time on a Dealing Day, you will be paid a price based on the Value of the Fund as at the Valuation Point of that Dealing Day. - If you submit the realisation form after 3pm Singapore time on a Dealing Day or on a day not being a Dealing Day, you will be paid a price based on the Value of the Fund as at the Valuation Point of the next Dealing Day. - The net realisation proceeds that you will receive will be the realisation price of the Fund multiplied by the number of Units realised, less any charges. An example is as follows: <table><tr><td>1,000 Units</td><td>X</td><td>S\$1.1500</td><td>=</td><td>S\$1,150.00</td></tr><tr><td>Your realisation request</td><td></td><td>Notional realisation price*</td><td></td><td>Realisation proceeds</td></tr></table> *Currently, the Fund does not impose a realisation charge. - You may also deal or trade your Units on the SGX-ST in accordance with the requirements of the SGX-ST. Please note that the sale price of your Units on the SGX-ST may not be equal to the Value of the Fund.	1,000 Units	X	S\$1.1500	=	S\$1,150.00	Your realisation request		Notional realisation price*		Realisation proceeds	Refer to the "Subscription of Units", "Realisation of Units" and "Obtaining Prices of Units" sections of the Prospectus for further information on valuation and exiting from the product.
