Where information in this Prospectus has been extracted from published or otherwise publicly available sources or obtained from a named source, the sole responsibility of the Directors has been to ensure that such information has been accurately and correctly extracted from those sources and/or reproduced in this Prospectus in its proper form and context. Unless otherwise stated or the context otherwise requires, all terms not defined in this Prospectus have the same meanings as used in the deed of trust dated 12 November 1996 (as amended) relating to the Fund (the "**Deed**").

Any listing and quotation of Units on the SGX-ST does not guarantee a liquid market for the Units.

The Units are Excluded Investment Products (as defined in the Notice on the Sale of Investment Products issued by the Monetary Authority of Singapore, as the same may be modified, amended or revised from time to time), which are defined as prescribed capital markets products specified in the Schedule to the Securities and Futures (Capital Markets Products) Regulations 2018.

You should seek professional advice to ascertain (a) the possible tax consequences, (b) the legal requirements or (c) any foreign exchange restrictions or exchange control requirements which you may encounter under the laws of the countries of your citizenship, residence or domicile and which may be relevant to the subscription, holding or disposal of Units, and should inform yourselves of and observe all such laws and regulations in any relevant jurisdiction that may be applicable to you.

No person, other than us, has been authorised to issue any advertisements or to give any information, or to make any representations in connection with the offering, subscription or sale of Units, other than those contained in this Prospectus and, if issued, given or made, such advertisements, information or representations must not be relied upon as having been authorised by the Fund, the Trustee or us.

Applications may be made in other jurisdictions to enable the Units to be marketed freely in those jurisdictions.

Prohibition against U.S. investors

The Units are being offered and sold outside the United States to persons that are not:

- (a) U.S. Persons (as defined in Regulation S promulgated under the Securities Act of 1933 of the United States of America ("**U.S.**"), as amended (the "**U.S. Securities Act**")) in reliance on Regulation S promulgated under the U.S. Securities Act; or
- (b) "United States persons" (as defined in Section 7701(a)(30) of the U.S. Internal Revenue Code, as amended, and referred to herein as "**U.S. Taxpayers**"). Currently, the term "**U.S. Taxpayer**" includes: a U.S. citizen or resident alien of the United States (as defined for U.S. federal income tax purposes); any entity treated as a partnership or corporation for U.S. tax purposes that is created or organised in, or under the laws of, the United States or any state thereof (including the District of Columbia); any other partnership that may be treated as a U.S. Taxpayer under future U.S. Treasury Department regulations; any estate, the income of which is subject to U.S. income taxation regardless of source; and any trust over whose administration a court within the United States has primary supervision and all substantial decisions of which are under the control of one or more U.S. fiduciaries. Persons who have lost their U.S. citizenship and who live outside the United States may nonetheless, in some circumstances, be treated as U.S. Taxpayers. Persons who are aliens as to the United States but who have spent 183 days or more in the United States in any of the last 2 years should check with their tax advisors as to whether they may be considered residents of the United States.

Units are not and may not be offered, made available, sold to or for the account of any U.S. Persons or U.S. Taxpayers. You may be required to declare that you are not U.S. Taxpayers and that you are neither acquiring Units on behalf of U.S. Taxpayers nor acquiring Units with the intent to sell or transfer them to U.S. Taxpayers.

Foreign Account Tax Compliance Act ("FATCA") and Common Reporting Standard ("CRS")

FATCA was enacted in 2010 by the United States Congress as part of the U.S. Hiring Incentives to Restore Employment Act to target non-compliance with tax laws by U.S. Taxpayers using overseas accounts. Under FATCA, financial institutions outside of the U.S. are required to regularly submit information on financial accounts held by U.S. Taxpayers to the U.S. tax authorities. Failure to comply with FATCA may, amongst other things, subject the Fund to U.S. withholding tax on certain types of payments made to the Fund. Accordingly, it is intended that the Fund comply with FATCA.

The Fund may also be required to identify certain reportable persons under the Standard for Automatic Exchange of Financial Account Information – Common Reporting Standard ("**CRS**"). The CRS is an internationally agreed standard endorsed by the Organisation for Economic Co-operation and Development for the automatic exchange of financial information between tax authorities of signatory jurisdictions. CRS has been implemented in Singapore via the Income Tax (International Tax Compliance Agreements) (Common Reporting Standard) Regulations 2016 ("**CRS Regulations**") with effect from 1 January 2017. The CRS Regulations sets out the financial account information to be obtained and exchanged, the financial institutions required to report, the different types of accounts and taxpayers covered, as well as the customer due diligence procedures to be followed. The CRS builds on the FATCA reporting regime to maximise efficiency and reduce costs for implementing jurisdictions and their financial institutions.

For the purpose of complying with FATCA and CRS, we, the Trustee and/or other service providers of the Fund may be required to (a) report and disclose information on certain investors in the Fund to the U.S. tax authorities and/or such Singapore authority as may be required under the Singapore laws and regulations implemented as part of the intergovernmental agreement ("**IGA**") entered into between the

U.S. and Singapore¹ in connection with FATCA or implemented in connection with CRS, and/or (b) withhold certain payments to such investors.

You are required to:

- (a) provide such information, documents, certifications and assistance in connection with the above as we and/or the Trustee may require from time to time;
- (b) notify us in writing immediately in the event that you are or have become a U.S. Taxpayer, or are holding Units for the account of or benefit of a U.S. Taxpayer; and
- (c) notify us of any update to any information, documents or certifications previously provided.

You are also deemed to have consented to us, the Trustee and/or other service providers to the Fund, carrying out our obligations in reporting and disclosing information on you and your investments to the relevant tax authorities (as may be required under Singapore laws and regulations implemented as part of the IGA entered into between the U.S. and Singapore, or in connection with the CRS).

We may compulsorily realise all or part of the Units held by you under the circumstances described at paragraph 14 of this Prospectus.

All enquiries in relation to the Fund should be directed to us, Singapore Consortium Investment Management Limited.

Please refer to the Deed for details on the Trustee's role and responsibilities.

4. The Custodian

The custodian of the Fund ("**Custodian**") is The Hongkong and Shanghai Banking Corporation Limited. It was incorporated in Hong Kong on 14 August 1866 and its registered office is at 1 Queen's Road Central, Hong Kong.

The Custodian was established and has been based in Hong Kong since 1865 and is a wholly owned subsidiary of HSBC Holdings plc, the holding company of the HSBC Group. It is regulated by the Hong Kong Monetary Authority and authorised as a registered institution by the Securities and Futures Commission of Hong Kong.

As at 1 January 2025, the Custodian's paid-up share capital constitutes an aggregate of HK\$123,949,000,000 (paid-up share capital in HK\$) and HK\$56,232,000,000 (paid-up share capital in US\$), now represented by its 49,579,391,798 ordinary shares in issue.

The Trustee has appointed the Custodian as the global custodian to provide custodial services to the Fund globally. The Custodian is entitled to appoint sub-custodians to perform any of the

Custodian's duties in specific jurisdictions where the Fund invests.

The Custodian is a global custodian with direct market access in certain jurisdictions. In respect of markets for which it uses the services of selected sub-custodians, the Custodian shall use reasonable care in the selection and monitoring of its selected sub-custodians.

The criteria upon which a sub-custodian is appointed is pursuant to all relevant governing laws and regulations and subject to satisfying all requirements of the Custodian in its capacity as global custodian. Such criteria may be subject to change from time to time and may include factors such as the financial strength, reputation in the market, systems capability, operational and technical expertise, clear commitment to the custody business, adoption of international standards etc. All sub-custodians appointed will, if required by the law applicable to them, be licensed and regulated to carry out the relevant financial activities in the relevant jurisdiction.

In the event the Custodian becomes insolvent, the Trustee may by notice in writing, terminate the custodian agreement entered into with the Custodian and, in accordance with the Deed, appoint such person as the new custodian to provide custodial services to the Fund globally.

The Custodian will remain as custodian of the Fund until its appointment is terminated in accordance with the terms of its appointment.

5. The Register of Holders

The registrar of the Fund is HSBC Institutional Trust Services (Singapore) Limited (the "**Registrar**") and the Register is kept and maintained at 20 Pasir Panjang Road (East Lobby), #12-21 Mapletree Business City, Singapore 117439. The Register is accessible to the Holders during normal business hours subject to such reasonable restrictions as the Registrar may impose. The Trustee may appoint any other party (including, without limitation, the Managers) to carry out and administer the Trustee's duties in relation to keeping and maintaining the Register.

The Register is conclusive evidence of the number of Units held by each Holder and the details in the Register will prevail in the event of any discrepancy between the entries in the Register and the details appearing on any statement of holding, unless the Holder proves to the satisfaction of the Trustee and us that the Register is incorrect.

For so long as the Units are listed, quoted and traded on the SGX-ST, the Trustee will procure that the CDP maintains a record of the depositors having Units credited into their respective Securities Accounts. This record is made available to us.

The administrator has been appointed to provide services for the Fund in relation to, inter alia, calculation of the Value of the Deposited Property and preparation of the financial statements, and its fees will be paid out of the Fund.

The administrator will remain as the administrator of the Fund until its appointment is terminated in accordance with the terms of its appointment.

7. The Auditors

The auditors of the accounts relating to the Fund are PricewaterhouseCoopers LLP (the "**Auditors**"), whose registered address is at 7 Straits View, Marina One, East Tower, Level 12 Singapore 018936.

8. Investment Objective, Focus and Approach

Investment Objective

- 8.1** The main objective of the Fund is to achieve medium to long-term capital appreciation by investing in the component securities of the Straits Times Index (which securities are listed on the SGX-ST). There is no target industry or sector. The Fund will track the respective weightings of the component securities of the Straits Times Index.

The Index

- 8.2** The Straits Times Index was originally created by SPH Media Ltd. (previously SPH Media Trust). The Straits Times Index is an index calculated by FTSE Russell ("**FTSE**") with data from SGX-ST (such parties, together with London Stock Exchange Group Plc and SPH Media Ltd., are referred to as the "**Index Sponsors**") to provide a benchmark index representing the performance of the top 30 companies listed on the SGX-ST ranked by market capitalisation.

Such representation may reflect the dominant position of certain issuer(s) in the Singapore market, as indicated in the Straits Times Index weightings at paragraph 8.3. While the composition and their weightings may vary over time, the market dominance of certain issuer(s) may continue as a consequence of that issuer's market capitalisation. Such dominance would appear in any other index that tracks the Singapore listed equity securities based on market capitalisation. As the Fund passively tracks the respective weightings of the component securities of the Straits Times Index, it will, subject to regulatory requirements, invest with substantially similar weightings as the index.

- 8.3** As at 13 August 2025, the 10 largest constituents of the Straits Times Index are as follows:

	Company	Index weight (%)
(1)	DBS Group Holdings Limited	26.22
(2)	Oversea-Chinese Banking Corporation Ltd	13.82
(3)	United Overseas Bank Limited	11.31
(4)	Singapore Telecommunications Limited	7.36
(5)	Jardine Matheson Holdings Limited	3.66
(6)	Singapore Technologies Engineering Ltd	3.38
(7)	Singapore Exchange Limited	3.27
(8)	CapitaLand Integrated Commercial Trust	3.18
(9)	Keppel Ltd	3.01
(10)	CapitaLand Ascendas REIT	2.46

Please note that the composition and the respective weightings of the component securities of the Straits Times Index may change from time to time. You should consider the risks associated with the use of the Straits Times Index as set out in paragraph 10.2.

- 8.4** The Index Sponsors determine the composition of the Straits Times Index in accordance with their rules and procedures (which may change from time to time), and publish information regarding the composition, investment characteristics and return of the Straits Times Index. The latest information on the Straits Times Index including the index methodology may be obtained from www.ftserussell.com. None of the Index Sponsors are related to us.

Investment Focus and Approach

- 8.5** A full replication strategy or similar strategy is intended to be employed for the Fund. In other words, generally all or substantially all of the Fund's assets will be invested in the constituent securities of the Straits Times Index, broadly in proportion to the respective weightings of the constituent securities in the index.

- 8.6** While the Fund will aim to follow the Straits Times Index as closely as possible, the Fund's performance will not be able to match exactly the performance of the Straits Times Index. Various circumstances may make it impossible or impracticable to purchase each component security with the same weightings and other investment techniques to track the index may be employed. As the constituents of the Straits Times Index changes over time, the Fund's portfolio of investment will be rebalanced and this may include selling securities that are represented in the index, or purchase securities that are not yet represented in the index, in anticipation of their removal from or addition to the index (as the case may be). We periodically monitor the weightings of the constituents of the Fund and endeavour to limit the deviation from the weightings of each constituent of the Straits Times Index to no more than 2 percentage points.
- 8.7** As at 31 December 2024, the 10 largest investments of the Fund (including 4 of which value is greater than 5% of the Fund's Value) are as follows:

	Security	Number of shares held by the Fund	Market value of shares (SGD)	Percentage of market value over Value of the Fund (%)

Authorised Investments

8.8 Subject to the MAS Code on Collective Investment Schemes ("**Code**"), the Fund is authorised to invest in the following authorised investments ("**Authorised Investments**"):

8.8.1 any Investment (as defined in the Deed) in or over the component securities of the Straits Times Index (including but not limited to instruments used in tracking the Straits Times Index), subject always to the investment restrictions as set out in paragraph 25; and

8.8.2 for hedging and/or efficient portfolio management purposes only, any foreign exchange transactions.

We do not intend to use financial derivatives (including options, warrants and futures contracts) in our management of the Fund and do not carry out securities lending and repurchase transactions for the Fund. In addition, there is currently no intention to invest the assets of the Fund in commodities, unlisted securities or precious metals.

8.9 An Investment (as defined in the Deed) which may be selected by us for the purpose of investment does not require the Trustee's prior approval or consent so long as such Investment falls within the definition of an Authorised Investment as set out above.

8.10 The Deed further provides that, subject to Clause 16(C) of the Deed, any requisite consents from the competent authorities, any borrowing limits set out in the Code and any statutory requirements for the time being in force, the Trustee will at any time as we may from time to time request, make and vary arrangements for the borrowing by the Trustee for the account of the Fund, of any currency, for the purposes of meeting redemptions and short term (not more than 1 month) bridging requirements including, without limitation, the purpose of enabling us to acquire Authorised Investments for the account of the Fund. The terms and conditions of any borrowing are subject to determination by the Trustee with our written approval and to certain limitations set out in the Deed and the Code.

8.11 Product Suitability

The Fund is only suitable for investors who:

- 8.11.1 seek medium to long term capital appreciation;
- 8.11.2 seek an investment that tracks the component securities of the Straits Times Index;

9.4 Fees and charges may increase your cost of investment and reduce the overall return of your investments over time.

10. Risks

10.1 General risks

You should consider and satisfy yourselves as to the risks of investing in the Fund. Generally, some of the risk factors that should be considered by you are market, liquidity, political, currency and investment risks.

An investment in the Fund is meant to produce returns over the medium to long-term. You should not expect to obtain short-term gains from such investment.

You should note that the value of Units, and the income accruing to the Units, may fall or rise and that you may not get back your original investment. There is no guarantee that the investment objectives of the Fund will be achieved.

10.2 Risks associated with an index trading fund

The information on the Straits Times Index has been extracted from publicly available documents that have not been prepared or independently verified by us or the Trustee in connection with the offer and listing of Units and neither of us makes any representation as to or takes any responsibility for the accuracy or completeness of the information. The information on the Straits Times Index may be changed by the Index Sponsors from time to time.

10.2.1 Concentration risk

The Straits Times Index is concentrated on the SGX-ST and accordingly, the Singapore market. Investment in only one country may be subject to higher risk as it may be less diversified than a global portfolio. Changes in the financial condition and changes in economic or political conditions that affect a particular issuer or the SGX-ST can affect the value of the issuer's securities or of the securities that are being traded on the SGX-ST. Any change to the value of such securities may affect the value of Units.

If market dominance exists, as reflected in the index composition that the Fund tracks, the Fund may have a higher concentration of investment in certain dominant issuer(s) and it may be more susceptible to changes affecting that company or those companies.

10.2.2 Composition of Index

Indices are not actively managed and the selection of the component indices, assets or securities will be made in accordance with the relevant index composition rules and eligibility criteria and by reference to performance criteria or performance outlook. Accordingly, the composition of an index is not designed to follow recommendations or research reports issued by the index provider / sponsor or any other person. No index provider / sponsor has any obligation to take the needs of the Fund or the investors of the Fund into consideration in determining, composing or calculating the relevant index.

The Units are not in any way sponsored, endorsed, sold or promoted by the Index Sponsors. The Index Sponsors make no warranty or representation whatsoever, either expressly or impliedly, either as to the results to be obtained from the Straits Times Index and/or the figure at which the Straits Times Index stands at any particular time on any particular day or otherwise.

The Index Sponsors further do not warrant nor represent nor guarantee to any broker or Holder or any member of the public as to the accuracy or completeness of the Straits Times Index and its computation or any information related thereto. No warranty or representation or guarantee of any kind whatsoever relating to the Straits Times Index or the Units is given by the Index Sponsors. The Units are not issued, endorsed, sold or promoted by the Index Sponsors and the Index Sponsors bear no liability in connection with the administration, marketing or trading of the Units.

The Straits Times Index is calculated by FTSE. The accuracy and completeness of the computation may be affected by, without limitation, the availability and accuracy of prices for constituent securities, market forces and errors in its compilation. The Index Sponsors accept no liability (whether in negligence or otherwise) towards any person for any error in the Straits Times Index and will not be under any obligation to advise any person of any error. The compilation or composition of the Straits Times Index or the constituent stocks and factors may be altered or changed by the Index Sponsors without notice.

Straits Times, Straits Times Index, ST and STI are trademarks of SPH Media Ltd.

10.2.3 Passive Investment

The Fund is not actively managed. Accordingly, the Fund may be affected by a decline in the market segments that affect the Straits Times Index. Since the Fund will track the respective weightings of the component securities of the Straits Times Index, adverse changes in the financial condition or share performance of any company included in the Straits Times Index may not result in the sale of the shares of such company, and such adverse changes will likely adversely affect the Fund's Value. We do not attempt to select stocks individually or to take defensive positions in declining markets. We may lack the discretion to adapt to market changes. ***A fall in the Straits Times Index may result in a corresponding fall in the Value of the Fund.***

10.2.4 Use of the Straits Times Index

We have been granted a licence by FTSE to use the Straits Times Index in connection with the issue, operation, marketing and promotion of the Fund. The Fund may be terminated if the index licence agreement is terminated or the Straits Times Index is no longer available for benchmarking and we are unable to identify or agree with FTSE or any other index provider terms for the use of a suitable replacement index that uses, in our opinion, the same or substantially similar formula for the method of calculation as the Straits Times Index. Any such replacement index will be notified to Holders. Accordingly, please note that the ability of the Fund to track the Straits Times Index depends on the continuation in force of the index licence agreement in respect of the Straits Times Index or a suitable replacement.

During the transition period when a replacement index is not available, we will continue to manage the Fund's portfolio in a manner consistent with the passive style of an index-tracking fund and in accordance with the methodology of the Straits Times Index to the extent that we are able to determine.

10.2.5 Tracking Error Risk

There is no assurance that the Fund will be able to fully track the performance of the Straits Times Index.

"Tracking error" is the difference between the performance of a fund's portfolio and that of its underlying index. The Value of the Fund may not correlate exactly with the Straits Times Index and changes in the Value of the Fund are unlikely to replicate exactly changes in the Straits Times Index. Factors such as the fees, costs and expenses of the Fund, imperfect correlation between the Fund's assets and the securities constituting the Straits Times Index, rounding of share prices, changes to the Straits Times Index, regulatory policies, investment and regulatory constraints, foreign currency valuation, unexpected financing costs in the event of severe market movements, inability to rebalance in response to changes in the Straits Times Index and the existence of a cash position held by the Fund may affect our ability to achieve close correlation with the performance of the Straits Times Index. The Fund's returns may therefore deviate from the Straits Times Index resulting in a tracking error. However, such tracking errors are not expected to be significant. As far as possible, we will seek to minimise tracking errors by minimising the cash holdings of the Fund.

10.2.6 Sustainability Risk

The Straits Times Index does not take into account Environmental, Social and Governance ("**ESG**") factors by design. As such, a company included in the Straits Times Index may not exhibit positive or favourable ESG characteristics. While we manage and mitigate sustainability risk by incorporating sustainability risk considerations into our stewardship frameworks, there can be no assurance that the utility and value of assets held by companies to which the Fund is exposed to will not be adversely impacted by sustainability risk.

"Sustainability Risk" refers to an environmental, social, or governance event, or condition that, if it occurs, could cause an actual or a potential material negative impact on the value of the investment arising from an adverse sustainability impact.

10.3 Other risks

10.3.1 Market risk

The usual risks of investing and participating in securities apply. Issuers whose securities make up the Straits Times Index may have businesses and operations in various markets. Prices of such securities may go up or down in response to changes in economic conditions, interest rates, and the relevant market's perception of such securities. These may cause the price of Units to go up or down as the price of Units is based on the current market value of the investments of the Fund.

10.3.2 Equity risk

The Fund invests in stocks and other equity securities which are subject to market risks that historically have resulted in greater price volatility than experienced by bonds and other fixed income securities. This in turn may affect the Value or volatility of the Fund.

10.3.3 Political risk

Global political situations may have an impact on companies in the Asian region. This may affect the value of the securities of companies involved, which may in turn impact on the value of the Units.

10.3.4 Foreign exchange / currency risk

The Straits Times Index is computed in Singapore Dollars but some of its component securities are quoted in foreign currencies. The Value of the Fund will therefore be affected by fluctuations of the exchange rates of foreign currencies against the Singapore Dollar. Additionally, the Fund will invest in companies with foreign currency earnings. There is therefore the risk that any fluctuations in these foreign currencies may also affect the income, the valuation of the assets of the Fund and the gains and losses realised upon the sale of assets. We may, if we deem fit, employ currency hedging techniques to manage the impact of foreign currency fluctuations on the Fund. However, we do not currently intend to hedge against foreign currency fluctuations.

10.3.5 Investment risk

An investment in unit trusts is subject to investment risks, including possible loss of the principal amount invested.

10.3.6 Liquidity risk

Some of the securities that the Fund may invest in may have limited liquidity and may therefore affect the Fund's ability to acquire or dispose of such securities at the time and price it desires.

We monitor and manage the liquidity risk of the Fund throughout its lifecycle. This includes ongoing monitoring of investors' redemption patterns and conducting regular assessments on the liquidity profile of the Fund's liabilities and assets. This is to facilitate the Fund's ability to anticipate or identify an emerging liquidity shortage before it occurs, and to take appropriate steps to minimise impact to investors.

10.3.7 Operating cost

There is no assurance that the performance of the Fund will achieve its investment objective. The level of fees and expenses payable by the Fund will fluctuate in relation to its Value. Although the amounts of certain ordinary expenses of the Fund can be estimated, the growth rate of the Fund, and hence its Value, cannot be anticipated. Please also note that we and the Trustee have the discretion to increase our respective fees up to the maximum level as provided in paragraph 9. The expenses of the Fund (such as, legal, audit and other professional fees) may also increase from time to time.

in line with market conditions. Accordingly, no assurance can be given as to the performance of the Fund or the actual level of its expenses.

10.3.8 Actions of institutional investors

We may accept subscriptions from institutional investors and such subscriptions may constitute a large portion of the total investments in the Fund. Whilst these institutional investors will not have any control over our investment decisions, the actions of such investors may have a material effect on the Fund. For example, substantial realisations of Units by an institutional investor over a short period of time could necessitate the liquidation of the Fund's assets at a time and in a manner which does not provide the most economic advantage to the Fund and which could therefore adversely affect the value of the Fund's assets.

10.3.9 Risk of exceptional market conditions

Under certain market conditions, it may be difficult or impossible to liquidate or rebalance positions. For example, this may occur during volatile markets or crisis situations or where trading under the rules of the relevant stock exchange is suspended, restricted or otherwise impaired. During such times, the Fund may be unable to dispose of certain assets due to thin trading or lack of a market or buyers. Placing a stop-loss order may not necessarily limit a Fund's losses to intended amounts as market conditions may make it impossible to execute such an order at the ideal price. In addition, such circumstances may force the Fund to dispose of assets at reduced prices, thereby adversely affecting the Fund's performance. Further, such investments may be difficult to value with any degree of accuracy or certainty. The dumping of securities in the market could further deflate prices. If the Fund incurs substantial trading losses, the need for liquidity could rise sharply at the same time that access to liquidity is impaired. Additionally, in a market downturn, the Fund's counterparties' financial conditions could be weakened, thereby increasing the Fund's credit risk.

10.3.10 Trading in Units on the SGX-ST

(a) Trading may be suspended and Units may be delisted

You will not be able to purchase or sell Units on the SGX-ST during any period when trading in the Units is suspended by the SGX-ST. The SGX-ST may suspend the trading of Units whenever the SGX-ST determines that it is appropriate in the interests of a fair and orderly market to protect investors. The creation and realisation of Units may also be suspended in the event that the trading of Units on the SGX-ST is suspended.

The SGX-ST imposes certain requirements for the continued listing of securities, including the Units, on the SGX-ST. There is no assurance that the Fund will continue to meet the requirements necessary to maintain the listing of Units on the SGX-ST or that the SGX-ST will not change the listing requirements. The Fund may be terminated if Units are delisted from the SGX-ST.

Dealings of Units on the SGX-ST may not necessarily be suspended in the event that the issue and realisation of Units is temporarily suspended by us or the Trustee in accordance with the terms of the Deed. If the issue and realisation of Units is temporarily suspended, the trading price of the Units may be adversely affected and may differ from the Value of the Fund.

(b) Units may trade at prices other than Value

The Value per Unit of the Fund represents the fair price for buying or selling Units. As with any listed fund, the secondary market price of Units may sometimes trade above or below this Value per Unit. The deviation from this Value is dependent on a number of factors but will be accentuated when there is a large imbalance between market supply and demand for Units on the SGX-ST. There is a risk, therefore, that Holders

may not be able to buy or sell Units listed on the SGX-ST at a price close to the Value per Unit of the Fund. The "bid/ask" spread (being the difference between the prices being bid by potential purchasers and the prices being asked by potential sellers) is another source of deviation from this Value per Unit. The bid/ask spread can widen during periods of market volatility or market uncertainty, thereby increasing the deviation from this Value per Unit.

(c) Trading and realisation of Units

Not all Units issued are listed on the SGX-ST. Unlisted Units will have to be realised by us in accordance with the realisation provisions under paragraph 13.

Please be aware that there may be no liquid trading market for Units which are listed on the SGX-ST. There can be no assurance that active trading markets for such Units will develop, nor is there a certain basis for predicting the actual price levels at, or sizes in, which Units may trade. If you are unable to sell your Units on the SGX-ST, you may apply to have your Units transferred out of your Securities Account and realised by us.

10.3.11 Broker risk

We may engage the services of third party securities brokers and dealers to acquire or dispose the investments of the Fund and to clear and settle its exchange traded securities trades. In selecting brokers and dealers and in negotiating any commission involved in its transactions, we consider, amongst other things, the range and quality of the professional services provided by such brokers and dealers, the credit standing of such brokers and dealers, and the licensing or regulatory status of such brokers and dealers.

It is possible that the brokers or dealers with which the Fund do business may encounter financial difficulties that may impair the operational capabilities of the Fund. In the event that one of these brokers or dealers were to fail or become insolvent, there is a risk that the Fund's orders may not be transmitted or executed and its outstanding trades made through the broker or dealer may not be settled.

10.3.12 Counterparty risk

Where the Fund enters into over-the-counter transactions, the Fund is exposed to the risk that a counterparty may default on its obligations to perform under the relevant contract. In the event of a bankruptcy or insolvency of a counterparty, the Fund could experience delays in liquidating an investment and may therefore incur significant losses, including losses resulting from a decline in the value of the investment during the period in which the Fund seeks to enforce its rights. The Fund may also be unable to realise any gains on the investment during such period and may incur fees and expenses to enforce its rights. There is also a possibility that the contracts may be terminated due to, for instance, bankruptcy, supervening illegality or change in the tax or accounting laws relative to those laws existing at the time the agreement was entered into.

The above should not be considered to be an exhaustive list of the risks which you should consider before investing in the Fund. Please be aware that an investment in the Fund may be exposed to other risks of an exceptional nature from time to time.

11. Listing on SGX-ST

The Fund was admitted to the Official List of the SGX-ST on 20 December 1996. The Fund's SGX counter name (SGX stock code) is SingIndexFund (S45U).

Units credited into a Securities Account may be traded on SGX-ST via the CDP's electronic book-entry (scripless) clearance and settlement system on the basis of a price between a willing seller and a willing buyer. For the purpose of trading on the SGX-ST, a board lot for the Units

will comprise 100 units. Units credited into a Securities Account may also be transferred to any other Securities Account with the CDP subject to a transfer fee payable to CDP and the terms and conditions of the operation of the Securities Account.

Units credited into a Securities Account may also be realised through us after such Units have been transferred out of the Securities Account of the Holder by the completion of the necessary transfer forms available from our office or the branches/offices of the Distributing Agents. Any individual Holder wishing to transfer S\$1,000,000 or more of Units for the purpose of realisation will be required to attend personally at the CDP to have his signature verified before proceeding with the transfer and realisation. Any direct corporate Holder wishing to transfer any number of Units will be required to have its authorised signatory attend personally at a broker, a depository agent or the CDP to have his signature verified before proceeding with the transfer and realisation.

All persons trading in the Units through the SGX-ST should ensure that the relevant Units have been credited into their Securities Accounts, prior to trading in such Units, since no assurance can be given that the Units can be credited into the Securities Accounts in time for settlement following a dealing. If the Units have not been credited into the Securities Accounts by the due date for settlement of the trade, the buy-in procedures of the SGX-ST will be implemented.

Other terms and conditions may be imposed by the CDP in respect of the operation of the Securities Accounts. You should check with the CDP for details or if you have any doubt or uncertainty.

12. Subscription of Units

12.1 Subscription procedure

Applications for Units may be made by way of printed application form through us and the Distributing Agents from time to time, or any other sales channels, if applicable.

You may submit one or more applications for Units and joint applications by two applicants may be accepted. Each application will be subject to the terms and conditions of the Deed. Care must be taken to follow the notes printed on the application form and in this Prospectus. Applications which do not comply with the notes or which are illegible, incomplete, incorrectly completed or which are accompanied by improperly drawn remittances may be rejected.

The acceptance or non-acceptance of applications for Units will, subject to the Deed, be at our absolute discretion acting in consultation with the Trustee. We reserve the right to issue fewer Units than the number applied for without assigning any reason.

Applications will not be accepted from any undischarged bankrupts, sole proprietorships, partnerships, non-corporate bodies and any person under the age of 18 years except if the application is made with a joint applicant of 18 years and above.

Applications should be accompanied by such documents as may be required, with the subscription monies in full, failing which we reserve the right to reject the relevant application. In particular, an application by a corporation must be accompanied by a copy of its Company Constitution, relevant corporate resolutions, a list of authorised signatories and their respective specimen signatures.

Each application must be accompanied by a remittance in Singapore currency for the full amount payable in respect of the Units applied for, by way of instruction to debit the applicant's bank account with any of the relevant Distributing Agents who are banks or by crossed cheque, cashier's order or banker's draft made payable to "Singapore Consortium Investment Management Limited" or by cash (which must be made in person at any branch of the Distributing Agents who are banks).

If you wish to make payment by telegraphic transfer, you should contact us for details regarding such form of payment. All bank charges incurred in respect of a telegraphic transfer will be borne by you.

You have a choice of paying for Units with cash or Supplementary Retirement Scheme ("**SRS**") monies. If you wish to use your SRS monies to purchase Units, you should indicate this on the relevant application form which contains your instructions to the SRS operator bank to withdraw from your account the subscription monies in respect of Units applied for. No transfer is permitted in respect of Units purchased by a Holder with SRS monies.

You may apply for Units to be held outside the CDP, in which case Units issued will be registered in the Register. You may also, when applying for Units, request that we credit your Units into your Securities Account.

Unaccepted applications will be returned to the applicant by ordinary post at the risk of the applicant within 10 Business Days of the application. Unsuccessful applicants will have their application moneys returned within 10 Business Days after their applications are received by cheque or such other means, by post at the applicants' risk at the same time as the returned application. All application moneys will be returned without any interest or any other connected benefit.

12.2 Tax residency disclosure

You will be required to state on the application form whether your tax residency status is Singapore. Under the Income Tax Act 1947 ("**Income Tax Act**"), a Singapore tax resident is:

- (a) in relation to an individual, a person who, in the year preceding the year of assessment, resides in Singapore except for such temporary absences during that period as may be reasonable and consistent with a claim by such person to be resident in Singapore, and includes a person who is physically present or who exercises an employment (other than as a director of a company) in Singapore for 183 days or more during the year preceding the year of assessment; and
- (b) in relation to a company or body of persons, a company or body of persons the control and management of whose business is exercised in Singapore.

12.3 Minimum initial subscription and minimum subsequent subscription

Minimum initial subscription	Minimum subsequent subscription
S\$1,000	S\$1,000

Please note that the Distributing Agents may impose a higher minimum initial or subsequent subscription amount. You should therefore check with the relevant Distributing Agent before submitting your application for subscriptions.

12.4 Dealing deadline and pricing basis

12.4.1 The Units were offered at an initial issue price of S\$1.00 for each Unit (including a Preliminary Charge of 3 cents for each Unit), during the initial launch period which commenced on 18 November 1996 and ended on 18 December 1996.

12.4.2 Subsequent to the initial launch period, the issue price is determined on a forward pricing basis. As such, the issue price of Units will not be ascertainable at the time of application.

In buying Units, you pay a fixed amount of money e.g., S\$1,000, which will buy you the number of Units² obtained from dividing that sum by the issue price when it has been ascertained later.

The dealing deadline is 3.00 p.m. Singapore time on a Dealing Day³. Units in respect of applications received and accepted by us before 3.00 p.m. Singapore time on a Dealing Day will be issued at that Dealing Day's issue price calculated in accordance with paragraph 12.4.3.

For applications received after 3.00 p.m. Singapore time on a Dealing Day or on a day which is not a Dealing Day will be treated as having been received on the next Dealing Day.

- 12.4.3 The issue price of a Unit will be ascertained (a) by calculating the Value (calculated as set out in paragraph 24.3) of the proportion of the Deposited Property of the Fund representing one Unit at the Valuation Point⁴ in respect of the Dealing Day on which such issue occurs; and (b) by adding to it the Preliminary Charge. The resultant figure will be determined up to 4 decimal places. The amount of any adjustment resulting from such determination will be retained by the Fund.

12.5 Numerical example of how Units are allotted

Units are allotted on a dual pricing system. The number of Units allotted for an investment of S\$1,000 based on a notional issue price of S\$1.0200 is calculated as follows:

S\$1,000	/	S\$1.0200	=	980 Units
Investment amount		Issue price (including 2% Preliminary Charge)		Number of Units allotted

The above example is hypothetical and is not indicative of the issue price on any Dealing Day or of the future or likely performance of the Fund.

12.6 Confirmation of purchase

A confirmation note detailing the investment amount and the number of Units allocated to you will be sent within 10 Business Days from the date of issue of the Units.

If you wish to have the Units credited into your Securities Account, a notification will be sent by the CDP, indicating the number of Units which have been credited into your Securities Account. It is expected that the Units will be credited to your Securities Accounts within 10 Business Days after the date of application for the Units.

No certificate will be issued to you in respect of the Units issued.

² Under the provisions of the Deed, no fractions of a Unit will be issued and in issuing such number of Units as correspond to the relevant subscription proceeds, we will truncate but not round off to the nearest whole Unit and the Fund will retain any balance arising from such truncation.

³ A "**Dealing Day**" in connection with the issuance, cancellation, valuation and realisation of units, means every Business Day or such Business Day or Business Days at such intervals as we may from time to time determine and reasonable notice of any such determination will be given by us to all Holders at such time and in such manner as the Trustee may approve. A "**Business Day**" means a day (other than Saturday, Sunday or a gazetted public holiday) on which commercial banks are open for business in Singapore and the SGX-ST is open for trading.

⁴ "**Valuation Point**" means the close of business of the last relevant market to close on a Dealing Day or such other day as we with the approval of the Trustee may from time to time determine and we will notify the Holders of such change if required by the Trustee.

12.7 Minimum fund size

In order for the Fund to remain viable, its size must be sufficient to cover at least its fixed operating costs. As provided under paragraph 24.6.3(a), we may terminate the Fund if at any time on or after 5 years from the date of the Deed, the aggregate Value of the Deposited Property is less than S\$5 million.

13. Realisation of Units

13.1 Realisation procedure

You may realise your Units on any Dealing Day by submitting a Realisation Request to us or through the relevant Distributing Agent through whom the Units were originally purchased. You may realise your Units in full or partially, subject to paragraph 13.2.

You should indicate on the realisation form whether the Units to be realised are to be debited from your Securities Account or from the Register.

If your Units were not credited into a Securities Account with the CDP and your realisation request is accepted, you will receive payment by telegraphic transfer with a confirmation note from us indicating the confirmed realisation price and the amount of sale proceeds.

If your Units were credited into a Securities Account with the CDP, you must have your Units transferred out of your Securities Account before your Units are realised by us, and if your realisation request is accepted, you will receive payment by telegraphic transfer with a payment advice from the CDP or any other method as may be imposed by the CDP.

In line with the roadmap of MAS to terminate the SGD cheque truncation system and to eliminate the use and issuance of corporate cheques in Singapore, the Administrator has discontinued cheque payments. You should furnish your bank account details to us when submitting the Realisation Request. All bank charges incurred in respect of a telegraphic transfer of realisation proceeds will be borne by you.

13.2 Minimum holding and minimum realisation amount

You must maintain a holding of at least one whole Unit.

The minimum realisation amount is 1,000 Units.

Please note that the Distributing Agents may impose a higher minimum holding or minimum realisation amount. You should therefore check with the relevant Distributing Agents before submitting your realisation requests.

13.3 Dealing deadline and pricing basis

13.3.1 Units in respect of Realisation Requests received and accepted by us by 3.00 p.m. Singapore time on a Dealing Day will be realised at that Dealing Day's Realisation Price calculated in accordance with paragraph 13.3.2. Realisation Requests received and accepted by us after 3.00 p.m. on a Dealing Day or on a day which is not a Dealing Day will be treated as having been received on the next Dealing Day.

As Units are realised on a forward pricing basis, the Realisation Price will not be ascertainable at the time of receipt by us of the Realisation Request.

13.3.2 The Realisation Price of a Unit will, subject to the provisions of the Deed, be ascertained by (a) calculating the Value (calculated as set out in paragraph 24.3) of the proportion of the Deposited Property of the Fund representing one Unit as at the Valuation Point in respect of the Dealing Day on which the Realisation Request is received; and (b) by deducting from it the Realisation Charge (if any). The resultant figure will be determined up to 4 decimal places. The amount of any adjustment resulting from such determination will be retained by the Fund.

13.3.3 If you are resident outside Singapore, we will be entitled to deduct from the total amount of realisation proceeds which would otherwise be payable to you on realisation an amount equal to the excess of the expenses actually incurred over the amount of expenses which would have been incurred if you had been resident in Singapore.

13.4 Numerical example of how the amount paid to a Holder is calculated, based on the sale of 1,000 Units and a notional realisation price of S\$1.1500:

1,000 Units	x	S\$1.1500	=	S\$1,150.00
Number of Units		Realisation price*		Realisation proceeds

*There is currently no Realisation Charge imposed.

The above example is hypothetical and is not indicative of the realisation price on any Dealing Day or of the future or likely performance of the Fund.

13.5 Payment of realisation proceeds

Realisation proceeds will normally be paid by telegraphic transfer or credited to the Holder's SRS account, as applicable, within 6 Business Days in Singapore (or such other period as may be allowed by the Authority):

- (i) for Units not credited into a Securities Account, from the Dealing Day following the receipt and acceptance of the realisation form by us or by the relevant Distributing Agent; and
- (ii) for Units credited into a Securities Account, from the Dealing Day following the transfer of your Units out of your Securities Account and the receipt and acceptance of the realisation form by us,

unless the realisation of Units has been limited in accordance with paragraph 13.6 or suspended in accordance with paragraph 17. All bank charges incurred in respect of a telegraphic transfer of realisation proceeds to you will be borne by you.

13.6 Limit on realisation

We may, with the approval of the Trustee, limit the total number of Units which Holders may realise and which we are entitled to have cancelled on any Dealing Day to 10% of the total number of Units then in issue (disregarding any Units which have been agreed to be issued), such limitation to be applied pro rata to all Holders who have validly requested realisations on such Dealing Day and us, so that the proportion realised of each holding so requested to be realised or cancelled is the same for all Holders and us.

Any Units which are not realised or cancelled (as the case may be) will be realised or cancelled (subject to any further application of the provisions of this paragraph) on the next succeeding Dealing Day provided that if on such next succeeding Dealing Day, the total number of Units to be cancelled or realised (as the case may be), including those carried forward from any earlier Dealing Day, exceeds such limit, we may further carry forward the requests for realisation or cancellation (as the case may be) until such time as the total number of Units to be realised or cancelled (as the case may be) on a Dealing Day falls within such limit.

If realisation requests are carried forward as described, we will, within 7 calendar days, give notice to the affected Holders that such Units have not been realised or cancelled and that (subject as described) they will be realised or cancelled on the next succeeding Dealing Day.

14. Compulsory Realisations

14.1 We have the right (in consultation with the Trustee) to compulsorily realise any holdings of Units in the Fund held by:

- (a) any Holder:
 - (i) whose subscription for or holding of Units, in our opinion, is or may be in breach of any applicable law or regulation in any jurisdiction; or
 - (ii) where such realisation is, in our opinion, necessary or desirable for our or the Fund's compliance with any applicable law or regulation in any jurisdiction (including any regulatory exemption conditions); or
- (b) any Holder whose holdings, in our opinion:
 - (i) may cause the Fund to lose its authorised or registered status with any regulatory authority in any jurisdiction; or
 - (ii) may cause the offer of the Units of the Fund, the Fund, this Prospectus, the Deed, the Trustee, or us to become subject to any authorisation, recognition, approval or registration requirements under any law or regulation in any other jurisdiction; or
- (c) any Holder whose holdings, in our opinion:
 - (i) may cause a detrimental effect on the tax status of the Fund in any jurisdiction or on the tax status of the Holders of the Fund; or
 - (ii) may result in the Fund or other Holders of the Fund suffering any other legal or pecuniary or administrative disadvantage which the Fund or Holders might not otherwise have incurred or suffered; or
- (d) any Holder who fails any anti-money laundering, anti-terrorist financing or know-your-client checks, or where information and/or documentary evidence requested by the Trustee and/or us for the purposes of any anti-money laundering, anti-terrorist financing or know-your-client checks cannot be obtained from the Holder (or the Holder has failed to provide the same) in a timely manner; or
- (e) any Holder, where information (including but not limited to information regarding tax status, identity or residency), self-certifications or documents as may be requested by the Trustee and/or us pursuant to laws, regulations, guidelines, directives or contractual obligations with other jurisdictions' authorities (including, without limitation, the FATCA and/or any Singapore laws, regulations, guidelines and directives implemented as part of any IGA entered into between the U.S. and Singapore in connection with FATCA) cannot be obtained from the Holder, or the Holder has failed to provide the same, in a timely manner; or
- (f) any Holder who does not consent, or withdraws his consent, for the Trustee or us to collect, use and/or disclose information or data relating to the Holder, where (in our or the Trustee's opinion) such information or data is necessary or desirable for us, the Trustee, our or its respective related corporations and/or other service providers to perform the respective services and/or duties to or in respect of the Fund and/or the Holder.

Any compulsory realisation under this paragraph may be carried out by us on any Dealing Day, with prior notice to the relevant Holder, and will be carried out in accordance with, and at the realisation price determined under, the applicable provisions on realisations in the Deed.

14.2 If we and/or the Trustee are required to account to any duly empowered fiscal authority of Singapore or elsewhere for any income or other taxes, charges or assessments whatsoever on the value of any Units held by a Holder, we (in consultation with the Trustee) will be entitled, at

any time with prior notice to that Holder, to realise such number of Units held by that Holder as may be necessary to discharge the liability arising. We and/or the Trustee (as the case may be) will be entitled to apply the proceeds of such realisation in payment, reimbursement and/or set-off against the liability.

- 14.3** We, the Trustee and our or its respective delegates, agents or associates will not be liable for any loss (whether direct or consequential and including, without limitation, loss of profit or interest) or damage suffered by any Holder or any party arising out of or caused in whole or in part by any actions which are taken by us, the Trustee and/or any of our or its respective delegates, agents or associates under this paragraph 14.

15. Switching of Units

Currently, you are not permitted to switch your Units for units in any other collective investment schemes.

16. Obtaining Prices of Units

The Fund will be valued on each Dealing Day. The indicative prices of the Units are quoted on a forward pricing basis and are available from our website at www.sicim.com.sg. The actual prices quoted will generally be published after the close of business on the Business Day following the relevant Dealing Day in Singapore Dollars.

Please note that the frequency of the publication of the prices is dependent on the publication policies of the publisher concerned. Save for our publications, we do not accept any responsibility for errors on the part of the publisher for the prices published in the newspapers or such other publication or for any non-publication or late publication of prices by such publisher, and will incur no liability in respect of any action taken or loss suffered by you upon such publication, non-publication or late publication by such publisher.

The market prices of Units which are listed on the SGX-ST (which may not be equal to the Value of the Fund) may be obtained from the SGX-ST's website at www.sgx.com.

17. Suspension of Dealing

- 17.1** Subject to the provisions of the Code and the Deed, we or the Trustee may, with the prior written approval of the other, suspend the issue, realisation, cancellation and valuation of Units during:

- 17.1.1 any period when the SGX-ST or any other Recognised Stock Exchange is closed (otherwise than for ordinary holidays) or during which dealings are restricted or suspended;
- 17.1.2 the existence of any state of affairs which, in our opinion might seriously prejudice the interests of the Holders as a whole or of the Deposited Property;
- 17.1.3 any breakdown in the means of communication normally employed in determining the price of any of such Authorised Investments or the current price thereof on the SGX-ST or any other Recognised Stock Exchange or when for any reason the prices of any of such Authorised Investments cannot be promptly and accurately ascertained (including any period when the fair value of a material portion of the Authorised Investments cannot be determined);
- 17.1.4 any period when remittance of moneys which will or may be involved in the realisation of such Authorised Investments or in the payment for such Authorised Investments cannot, in our opinion, be carried out at normal rates of exchange;
- 17.1.5 any 48 hour-period (or such longer period as we and the Trustee may agree) prior to the date of any meeting of Holders (or any adjournment thereof);
- 17.1.6 any period where dealing of Units is suspended pursuant to any order or direction of the Authority;

- 17.1.7 any period when our or the Trustee's business operations in relation to the operations of the Fund are substantially interrupted or closed as a result of or arising from pestilence, acts of war, terrorism, insurrection, revolutions, civil unrest, riots, strikes or acts of God;
- 17.1.8 exceptional circumstances, where we have determined that such suspension is in the best interest of the Holders; or
- 17.1.9 such other circumstances, as may be required under the provisions of the Code.
- 17.2** Subject to the provisions of the Code, we and/or the Trustee may from time to time also suspend the issue and/or realisation of Units in certain situations as set out in the Deed.
- 17.3** Subject to the provisions of the Code, there is no maximum period of suspension under this paragraph 17 and such suspension will take effect forthwith upon the declaration in writing of the suspension to the Trustee by us (or, as the case may be, to us by the Trustee). The suspension will terminate as soon as practicable when the condition giving rise to the suspension has ceased to exist and no other conditions under which suspension is authorised under this paragraph 17 exist, upon the declaration in writing of the termination by us (or, as the case may be, by the Trustee), and in any event, within such period as may be prescribed by the Code. The period of suspension may be extended in accordance with the Code.

18. Performance of the Fund and Benchmark

Past performance, benchmark performance, expense ratio and turnover ratio of the Fund

Inception date: 18 December 1996	1 year (%)	3 years (%)	5 years (%)	10 years (%)	Since inception (%)	Expense ratio (%) ⁽³⁾	Turnover ratio (%) ⁽⁴⁾
(NAV-NAV) ⁽¹⁾	24.14	12.72	12.70	4.95	4.71	1.03	0.74
(Adjusted NAV-NAV) ⁽²⁾	21.66	11.97	12.24	4.74	4.63		
Benchmark (in SGD): Straits Times Index ⁽⁵⁾	25.46	14.08	13.83	6.10	4.61		

⁽¹⁾ Calculated in Singapore Dollars on an NAV-to-NAV basis as at 30 June 2025, with all dividends and distributions reinvested (net of reinvestment charges). Figures for 1 year show the percentage change, while figures for more than 1 year show the average annual compounded return.

⁽²⁾ Calculated in Singapore Dollars on an NAV-to-NAV basis as at 30 June 2025, taking into account any Preliminary or Realisation Charge set out in paragraph 9 (i.e. offer-to-bid basis) with all dividends and distributions reinvested (net of reinvestment charges). Figures for 1 year show the percentage change, while figures for more than 1 year show the average annual compounded return.

⁽³⁾ The expense ratio is calculated in accordance with the requirements in the Investment Management Association of Singapore's guidelines on the disclosure of expense ratios (the "IMAS Guidelines") and based on the audited accounts of the Fund for the financial year ended 30 June 2024. The following expenses (where applicable) as set out in the IMAS Guidelines (as may be updated from time to time), are excluded from the calculation of the expense ratio:

- (a) brokerage and other transaction costs associated with the purchase and sales of investments (such as registrar charges and remittance fees);
- (b) interest expense;

- (c) foreign exchange gains and losses of the Fund, whether realised or unrealised;
 - (d) front-end loads, back-end loads and other costs arising from the purchase or sale of a foreign unit trust or mutual fund;
 - (e) tax deducted at source or arising from income received, including withholding tax; and
 - (f) dividends and other distributions paid to Holders.
- (4) The turnover ratio for the financial year ended 30 June 2024 is calculated based on the lesser of purchases or sales of the Fund's underlying investments expressed as a percentage of the daily average Value of the Fund.
- (5) The benchmark against which the Fund's performance is measured since 26 January 2001 is the Straits Times Index in total returns. The benchmark performance figures are calculated in Singapore Dollars and on the basis of dividends (if any) reinvested. The benchmark of the Fund since inception up to 23 January 2001 was the Business Times – Singapore Regional Index. The change in benchmark was due to the change in the investment policy of the Fund to track the Straits Times Index instead of the Business Times – Singapore Regional Index.

Please note that the past performance of the Fund is not necessarily indicative of the future performance of the Fund.

19. Soft Dollar Commissions / Arrangements

Subject to the provisions of the Code, we may from time to time, receive or enter into soft-dollar commissions or arrangements in respect of the management of the Fund. We will comply with applicable regulatory and industry standards on soft-dollars. The soft-dollar commissions or arrangements may include specific advice as to the advisability of dealing in, or of the value of any investments, research and advisory services, economic and political analyses, portfolio analyses including valuation and performance measurements, market analyses, data and quotation services, computer hardware and software or any other information facilities to the extent that they are used to support the investment decision making process, the giving of advice, or the conduct of research or analysis, and custodial service in relation to the investments managed for our clients.

Soft-dollar commissions or arrangements received will not include travel, accommodation, entertainment, general administrative goods and services, general office equipment or premises, membership fees, employees' salaries or direct money payment.

We may not accept or enter into soft dollar commissions or arrangements unless:

- (a) such soft-dollar commissions or arrangements can reasonably be expected to assist us in our management of the Fund;
- (b) best execution is carried out for the transactions; and
- (c) no unnecessary trades are entered into in order to qualify for such soft-dollar commissions or arrangements.

We do not, and are not entitled to, retain cash rebates for our own account in respect of rebates earned when transacting in securities for the account of the Fund.

20. Market Timing

The Fund is designed and managed to support medium to long-term investments. In this regard, we take a serious view of, and strongly discourage the practice of market timing (that is, investors conducting short-term buying or selling of Units to gain from inefficiencies in pricing) as such practices may cause an overall detriment to the long-term interest of other investors. In addition, short-term trading in Units increases the total transaction costs of the Fund, such as

trading commission and other costs which are absorbed by all other investors. Moreover, the widespread practice of market timing may cause large movements of cash in the Fund which may disrupt the investment strategies to the detriment of long-term investors. For the reasons set out above, we strongly discourage the practice of market timing and may implement internal measures to monitor and control such practice. If any internal measure to restrict the practice of market timing amounts to a significant change to the Fund (as provided in the Code), we will inform Holders of such internal measure not later than 1 month before its implementation. We intend to review our policy on market timing from time to time in a continuous effort to protect the long-term interests of investors in the Fund.

21. Conflicts of Interest

Should a material conflict of interest arise in relation to the allocation of investments, we and the Directors will use our best efforts to ensure that it is resolved fairly. We, the Directors and our connected persons and the Custodian and its connected persons, will (in relation to the Units that such persons may hold) refrain from voting at, or being part of a quorum for, any meeting to approve any matter in which such person believes it or he has a material interest.

We, the Directors, the Trustee, and our or their respective associates, directors, executive officers and representatives (collectively, the "**Parties**") are (or may be) involved in other financial, investment and professional activities that may, on occasion, cause conflict of interest with the management of the Fund. These include, inter alia, the management of other funds, purchases and sales of securities (including the Parties' securities), and the provision of investment and management counselling, brokerage, trustee and custodial services to other funds or companies (including companies in which the Fund may invest). The Parties may also hold interests in and/or serve as directors, officers, advisers or agents of such other funds or companies. Each of the Parties will respectively ensure that the performance of their respective duties will not be impaired by any such involvement that they might have. In the event that a conflict of interest does arise, the Parties will endeavour to ensure that it is resolved fairly and in the interest of Holders.

We are of the view that there is no conflict of interest in managing our other funds (if any) and the Fund because of the following structures in place:

- (a) We are a member of the Investment Management Association of Singapore ("**IMAS**") and subscribe and adhere to the IMAS Code of Ethics and Standards of Professional Conduct. The Code of Ethics and Standards of Professional Conduct are in place to ensure high ethical and professional standards of investment professionals as well as fair treatment of the investing public.
- (b) Investment decisions for each fund are made impartially. There are no preferred customers or funds and all accounts are treated equally.
- (c) Interests of clients receive priority over the interests of the employees (including the Directors). This will mean satisfying client transactions before dealing for employee accounts and avoiding any conflict between the interests of clients and those of our employees (including the Directors). Where there is a deemed potential conflict of interest, our employees, including the Directors should report immediately to the compliance officer as well as an appropriate director who will either resolve the potential conflict or ensure proper disclosure to the affected clients.
- (d) Investments are allocated between various funds which place the same orders simultaneously on a pro rata basis as far as possible, taking into account the availability of cash and the relevant investment guidelines of these funds.
- (e) Cross trades between staff personal accounts and client accounts are prohibited. Cross trades between a "house account" controlled by us and a client account are also prohibited, where "house account" means an account owned by us or any of our connected persons over which we can exercise control or influence.

We, our related entities, directors, officers or employees may from time to time hold interests (including beneficial or otherwise) in the Units of the Fund. We and our related entities may invest and deal in the Units for the account of another person (including, without limitation, our other clients). If we do so, we will have regard to our obligations to the Fund and, in particular, our obligation to act in the best interests of the Fund and the Holders so far as practicable, having regard to applicable laws and our obligations to our other clients. In the event that a conflict of interest does arise, we will endeavour to ensure that such conflict is resolved fairly.

We, the Directors and our associates are not entitled to receive any part of any brokerage charged to the Fund, or any part of any fee, allowances, benefits, etc. received on purchases charged to the Fund.

The Trustee is presently also offering registrar and valuation services to the Fund. These services are provided on an arm's length basis and the fees for these services are permitted to be paid out of the Deposited Property under the provisions of the Deed.

We and the Trustee will conduct all transactions for and on behalf of the Fund at arm's length.

Associates of the Trustee may be engaged to provide financial, banking or brokerage services to the Fund or buy, hold and deal in any investments, enter into contracts or other arrangements with the Trustee and make profits from these activities. Such services to the Fund, where provided, and such activities with the Trustee, where entered into, will be on an arm's length basis.

22. Reports

Financial year-end and distribution of reports

The financial year-end for the Fund is 30 June. Please also note that any distribution will be automatically reinvested** in further Units of the Fund by a deemed automatic distribution reinvestment mandate unless such mandate is withdrawn by the Holder upon giving us written notice at least 30 days in advance.

Any distributions made will reduce the Value of the Fund.

The following sections, extracted from the Deed, are set out for your information.

24.2.4 Any indemnity expressly given to the Trustee or the Managers in the Deed is in addition to and without prejudice to any indemnity allowed by law; Provided Nevertheless That any provision of the Deed shall be void insofar as it would have the effect of exempting the Trustee or the Managers from or indemnifying them against any liability for breach of trust or any liability which by virtue of any rule of law would otherwise attach to them in respect of any negligence, default, breach of duty or trust of which they may be guilty in relation to their duties where they fail to show the degrees of diligence and care required of them having regard to the provisions of the Deed.

24.2.5 Nothing herein contained shall be construed so as to prevent the Managers and the Trustee in conjunction or the Managers or the Trustee separately from acting as managers or trustees of trusts separate and distinct from the Fund and neither of them shall in any way be liable to account to the Fund or any other person for any profit or benefit made or derived hereby or in connection therewith.

24.2.6 Neither the Trustee nor the Managers shall be responsible for acting upon any resolution purported to have been passed at any meeting of the Holders in respect whereof minutes shall have been made and signed even though it may be subsequently found that there was some defect in the constitution of the meeting or the passing of the resolution or that for any reason the resolution was not binding upon all the Holders.

- 24.2.7 The Trustee and the Managers may accept as sufficient evidence of the Value of any Authorised Investment or the cost price or sale price thereof or of any market quotation a certificate by a Stockbroker or any other person, firm or association qualified in the opinion of the Managers to provide such a certificate.

The Managers and the Trustee shall not be liable to account to any Holder or otherwise for any payment made or suffered by any of them in good faith to any duly empowered fiscal authority of Singapore or elsewhere for taxes or other charges in any way arising out of or relating to any transaction of whatsoever nature under the Deed notwithstanding that any such payments ought not to be or need not have been made or suffered.

24.3 Valuation

- 24.3.1 The Value, except where otherwise expressly stated and subject always to the requirements of the Code, with reference to any Authorised Investment which is:
- (a) a Quoted Investment, shall be calculated, as the case may be, by reference to the official closing price, the last known transacted price or the last transacted price on the SGX-ST or such Recognised Stock Exchange or OTC Market on which the Investment is traded before the Valuation Point in respect of the Dealing Day on which the Value is to be determined. Where such Quoted Investment is listed, dealt or traded in more than one Recognised Stock Exchange or OTC Market, the Managers (or such person as the Managers may appoint for the purpose) may in their absolute discretion select any one of such Recognised Stock Exchange or OTC Market for the foregoing purposes and, if there is no such official closing price, last known transacted or last transacted price, the value shall be calculated by reference to the last available price(s) quoted by responsible firms, corporations or associates on a Recognised Stock Exchange or an OTC market at the Valuation Point in respect of the Dealing Day on which the Value is to be determined;

same or similar Investments, valuations of comparable companies or discounted cash flow analysis, as may be determined by the Managers to represent the fair value of such Investment. In the valuation of such Investment, the Managers may take into account relevant factors including, without limitation, significant recent events affecting the issuer such as pending mergers and acquisitions and restrictions as to saleability or transferability;

- (c) cash, deposits and similar assets shall be valued (by a person approved by the Trustee as qualified to value such cash, deposits and similar assets) at their face value (together with accrued interest) unless, in the opinion of the Managers, any adjustment should be made to reflect the value thereof;

For the purposes of this proviso, the "fair value" shall be determined by the Managers in consultation with a stockbroker or an approved valuer and with the approval of the Trustee in accordance with the Code. Where the fair value of a material portion of the Deposited Property cannot be determined, the Managers shall, subject to the provisions of the Code, suspend valuation and dealing in the Units of the Fund.

In exercising in good faith the discretion given by the proviso above, the Managers shall not, subject to the provisions of the Code, assume any liability towards the Fund, and the Trustee shall not be under any liability in accepting the opinion of the Managers, notwithstanding that the facts may subsequently be shown to have been different from those assumed by the Managers.

The Managers may, to the extent permitted by the Authority, and subject to the prior approval of the Trustee, change the method of valuation as described above, and the Trustee shall determine if the Holders should be informed of such change.

24.3.2 In calculating the Value of the Deposited Property or any proportion thereof:

- (d) there shall be deducted any amounts not provided for above which are payable out of the Deposited Property including:
 - (i) any amount of Management Fee, the remuneration of the Trustee and any other expenses accrued but remaining unpaid;

- (e) there shall be taken into account such sum as in the estimate of the Managers will fall to be paid or reclaimed in respect of taxation related to Income up to the time of calculation of the Value of the Deposited Property;
- (f) there shall be added the amount of any tax, if any, on capital gains estimated to be recoverable and not received;
- (g) any Value (whether of an Authorised Investment, cash or a liability) otherwise than in Singapore Dollars and any non-Singapore Dollar borrowing shall be converted into Singapore Dollars at the rate (whether official or otherwise) which the Managers shall after consulting with or in accordance with a method approved by the Trustee deem appropriate to the circumstances having regard inter alia to any premium or discount which may be relevant and to the costs of exchange; and
- (h) where the current price of an Authorised Investment is quoted "ex" dividend, interest or other payment but such dividend, interest or other payment has not been received the amount of such dividend, interest or other payment shall be taken into account.

The Managers may, subject to the prior approval of the Trustee and to the extent permitted by the Authority, change the method of valuation as described above, and the Trustee shall determine if the Holders should be informed of such change.

24.8 Liquidity risk management

The liquidity risk management tools available to manage liquidity risk include the following:

- (a) We may (with the approval of the Trustee), limit the total number of Units which Holders may realise and which we are entitled to have cancelled on any Dealing Day to 10% of the total number of Units then in issue (disregarding any Units which have been agreed to be issued), such limitation to be applied pro rata to all Holders who have validly requested realisations on such Dealing Day and us, so that the proportion realised of each holding so requested to be realised or cancelled is the same for the all Holders and us;
- (b) We may (with the approval of the Trustee), suspend the realisation of Units under certain circumstances, as set out in paragraph 17, including during exceptional circumstances, where we have determined that such suspension is in the best interest of the Holders; and
- (c) The Fund may, subject to the provisions of the Trust Deed and the borrowing restrictions in the Code, borrow up to 10% of the Value of the Fund at the time the borrowing is incurred, on a temporary basis for a borrowing period not exceeding 1 month, for the purposes of meeting redemptions and bridging requirements.

25. Investment Restrictions

The Fund is subject to the investment and borrowing guidelines under Appendices 1 and 5 of the Code, as supplemented by the MAS Circular No. CFD 01-2023 (the "**Circular**"). The latest version of the Code and the Circular may be found at the Authority's website: <https://www.mas.gov.sg/>. Please note that the Authority may, from time to time, update or amend the Code or the Circular.

The Fund may at any time and from time to time borrow, on a temporary basis for a borrowing period not exceeding 1 month, for the purposes of meeting redemptions and bridging requirements. Aggregate borrowings for such purposes should not exceed 10% of the Value of the Fund at the time the borrowing is incurred.

In addition, please note that the Units are Excluded Investment Products (as defined in the Notice on the Sale of Investment Products issued by the Authority, as the same may be modified, amended or revised from time to time) ("**EIPs**"), which are defined as prescribed capital markets products specified in the Schedule to the Securities and Futures (Capital Markets Products) Regulations 2018, and that the Fund does not invest and will not invest in any product and does not engage and will not engage in any transaction which may cause the Units not to be regarded as EIPs.

26. Taxation

This is a summary of certain Singapore tax consequences of the purchase, ownership and disposal / redemption of Units in the Fund. The summary is based on the existing provisions of the relevant tax law, the regulations thereunder, the circulars issued by the Authority and practices in effect as at the date hereof, all of which are subject to change and differing interpretations, either on a prospective or retroactive basis.

The summary is not intended to constitute a complete analysis of all the tax considerations relating to participation in the Fund. Prospective unitholders should consult their own tax advisers including the tax consequences arising under the laws of any other tax jurisdiction which may be applicable to their circumstances. The summary does not constitute tax or legal advice.

It is emphasised that neither the Trustee nor the Managers or any persons involved in the issuance of the Units accept responsibility for any tax effects or liabilities resulting from the acquisition, holding or disposal / redemption of the Units.

The Fund has been granted the Designated Unit Trust ("**DUT**") status by the Inland Revenue Authority of Singapore ("**IRAS**") on 3 December 1996. With effect from 1 September 2014, the DUT scheme is administered on a self-assessment basis. To claim the DUT tax deferral benefits in any year of assessment, an annual declaration form must be completed and submitted together with the tax return by the statutory deadline or within such extended time granted by the IRAS, and the fund must meet all of the DUT conditions throughout the basis period, including the following:

- (a) The fund is a collective investment scheme that is authorised under section 286 of the SFA and the units are open to the public for subscription;
- (b) The fund is not a real estate investment trust or a property trust that invests directly in immovable properties in Singapore;
- (c) The trustee of the fund is tax resident in Singapore; and
- (d) The fund manager holds a capital markets services licence for fund management under the SFA or is exempt from the requirement to hold such a licence under the SFA, and the fund is managed by that fund manager in Singapore.

The Managers and the Trustee will endeavour to conduct the affairs of the Fund in such a manner that it fulfils the DUT conditions. The Trustee shall submit the annual declaration form,

upon confirmation from the Managers of the relevant information therein, together with the Fund's tax return for each relevant year of assessment by the relevant deadline.

The DUT scheme has expired on 1 April 2019. However, the Fund, as an existing DUT, can still continue to enjoy the tax deferral benefits under the DUT scheme if it (i) meets all the DUT conditions in the basis period immediately preceding the basis period on which 1 April 2020 falls and an election is made for the DUT tax deferral benefits to apply to the Fund in the first-mentioned basis period; and (ii) meets all the DUT conditions and an election is made for the DUT tax deferral benefits for every subsequent year of assessment.

The Fund will not enjoy the DUT tax deferral benefits if it fails to meet any of the DUT conditions for any year of assessment relating to a basis period beginning or on after 1 April 2020 or no election is made for the DUT tax deferral benefits for any basis period beginning on or after that date. The DUT tax deferral benefits will not apply to the Fund for the year of assessment to which that basis period relates and for every subsequent year of assessment.

As a DUT within the meaning of Section 35(12) of the Income Tax Act, the following treatment will apply in relation to Singapore income tax:

Fund level

Income of a trust is generally taxable in the hands of its trustee. If the trust is eligible for DUT tax deferral benefits and so elects, the following amounts earned by the fund ("**Designated Income**") do not form part of the statutory income of the fund and is thus exempt from income tax in the hands of the trustees:

- (a) Interest (other than interest from which Singapore income tax has been withheld under Section 45 of the Income Tax Act), including interest from qualifying debt securities;
- (b) Dividends derived from outside Singapore and received in Singapore;
- (c) Gains or profits derived from Singapore or elsewhere from the disposal of securities;
- (d) Rental and any other income derived from any immovable properties situated outside Singapore and received in Singapore;
- (e) Discount derived from outside Singapore and received in Singapore;
- (f) Discount from qualifying debt securities issued during the period from 17 February 2006 to 31 December 2028;
- (g) Distributions from foreign unit trusts derived from outside Singapore and received in Singapore;
- (h) Fees and compensatory payments derived (other than fees and compensatory payments for which tax has been deducted under Section 45A) from securities lending or repurchase arrangements with certain specified persons;
- (i) Gains or profits derived from disposal of debentures, stocks, shares, bonds or notes issued by supranational bodies;
- (j) Gains or profits derived from:
 - (i) foreign exchange transactions;
 - (ii) transactions in future contracts;
 - (iii) transactions in interest rate or currency forwards, swaps or option contracts; and
 - (iv) transactions in forwards, swaps or option contracts relating to any securities or financial index;
- (k) Prepayment fee, redemption premium and break cost from qualifying debt securities issued during the period from 15 February 2007 to 31 December 2028; and

- (l) Such other income directly attributable to qualifying debt securities issued on or after a prescribed date, as may be prescribed by regulations.

Unless otherwise exempt from tax, any income or gains that do not fall within the prescribed list of Designated Income (i.e. "**non-Designated Income**") will generally be subject to tax in the hands of the trustee at the prevailing corporate income tax rate currently at 17%.

The Fund would not be taxable in respect of dividends paid by Singapore tax resident companies and tax exempt distributions from real estate investment trusts listed on the Singapore Exchange and registered business trusts.

No tax is withheld from distributions made by a DUT.

Dividends, interest income, gains from the disposal of investments and other income received by the Fund on its investments in some foreign countries may be liable to the imposition of withholding tax or other tax in the foreign country.

Holder's level – Distributions

Individuals

Any distribution made by a DUT and received by an individual (whether resident or not) is exempt from Singapore income tax, except where such income is derived through a partnership in Singapore or is derived from the carrying on of a trade, business or profession.

Non-individuals

Any distribution made by a DUT and received by a foreign investor (other than an individual) which has been made out of Designated Income is exempt from Singapore income tax provided that the distribution is not connected with a permanent establishment that the foreign investor may have in Singapore.

A foreign investor is:

- (a) in relation to an individual, an individual who is not resident in Singapore;
- (b) in relation to a company, a company which is neither resident in Singapore nor carrying on business through a permanent establishment in Singapore, and not less than 80% of the total number of the issued shares are beneficially owned, directly or indirectly, by persons who are not citizens of Singapore and not resident in Singapore; and
- (c) in relation to a trust fund, a trust fund where at least 80% of the value of the fund is beneficially held, directly or indirectly, by foreign investors referred to above and, unless waived by the Minister or such person as he may appoint, where:
 - (i) the trust fund is created outside Singapore; and
 - (ii) the trustees of the trust fund are neither citizens of Singapore nor resident in Singapore, nor do they carry out duties through a permanent establishment in Singapore.

Other Holders

Other Holders (i.e. those who are neither individuals nor foreign investors) are generally subject to Singapore income tax on the gross amount of the distributions paid out of Designated Income by the Fund. Such distributions are deemed to be income of, and will be taxed in the hands of such Holders at their applicable tax rates. In the case of a corporate Holder, the current income tax rate is 17%. Where the Designated Income is specified income from qualifying debt securities (as defined in the Income Tax Act), any distribution made out of such income will, based on the current practice of IRAS, be taxed at the concessionary rate of 10%.

In general, any non-Designated Income is subject to final tax at the Fund's level. Any distributions made out of non-Designated Income will not be subject to further Singapore income tax in the hands of such Holders.

Distributions made by the Fund out of any non-Designated Income that is exempt from Singapore income tax (e.g. Singapore one-tier dividend) will be tax-exempt in the hands of such Holders.

Holder's level – Holding of Units

If the Designated Income of the Fund did not form part of the Trustee's statutory income for one or more past years of assessment ("YAs") by reason of the DUT tax deferral benefits ("**tax deferred Designated Income**") and any of the events set out in the first column of the following table occurs for which the corresponding date is on or after 1 June 2015, then certain Holders (i.e. those who are neither individuals nor foreign investors as defined under section 10(23) of the Income Tax Act) shall be treated as having derived, on the corresponding date, an amount of income that is equal to the prescribed amount of tax deferred Designated Income that has yet to be distributed to any Holders by the corresponding date.

The prescribed amount refers to the amount that would have been distributed to the relevant investors based on the distribution policy in the trust deed. In the scenario where it is not possible to ascertain that amount under the trust deed (e.g. there is no distribution policy, or where the distribution policy was unclear or allowed variations to the distribution policy), the prescribed amount would be based on the number of units held by the relevant investors in proportion to the total number of units of the unit trust on the relevant date.

Event	Corresponding date
The Fund does not meet one or more conditions of the DUT scheme for any YA	Last day of the basis period ⁵ for the immediately preceding YA
No election for the DUT tax deferral benefits for the sub-fund for any YA	Last day of the basis period ⁵ for the immediately preceding YA

Holder's level – Disposal of Units or dissolution of Fund

Gains on disposal of Units by a Holder should not be subject to Singapore taxation, unless:

- (a) the gains are derived in the course of a trade or business carried on in Singapore; or
- (b) the gains are derived in the course of a trade or business carried on outside Singapore and received or construed to be received in Singapore (i.e. foreign income). Certain tax exemptions on foreign income may apply where conditions are satisfied.

As the tax treatment depends on the particular situation of the investors, investors should consult their own tax advisers with regard to the tax consequences arising from distribution made by the Fund and gains arising from disposal of the Units.

If the Designated Income of the Fund did not form part of the Trustee's statutory income for one or more past YAs by reason of the DUT tax deferral benefits and the Fund is dissolved on or after 1 June 2015 and meets all applicable conditions of the DUT scheme for the Year of Assessment for the basis period in which the dissolution occurred, then certain Holders (i.e. those who are neither individuals nor foreign investors as defined under section 10(23) of the

Income Tax Act) shall be treated as having derived, on the Fund's dissolution date, an amount of income that is equal to the prescribed amount of tax deferred Designated Income that has yet to be distributed to any Holders by the Fund's dissolution date.

The prescribed amount refers to the amount that would have been distributed to the relevant investors based on the distribution policy in the trust deed. In the scenario where it is not possible to ascertain that amount under the trust deed (e.g. there is no distribution policy, or where the distribution policy was unclear or allowed variations to the distribution policy), the prescribed amount would be based on the number of units held by the relevant investors in proportion to the total number of units of the unit trust on the relevant date.

Fund level – Goods and Services Tax

The Fund may incur Singapore Goods and Services Tax ("**GST**") on its expenses. Should there be GST incurred, the Fund may be allowed to claim the GST if it meets the qualifying conditions through a GST remission which has been extended to 31 December 2029. The amount of GST claimed is based on a fixed percentage which is revised annually. The fixed percentage for 2025 is 91%. However, should the Fund not meet the qualifying conditions, the GST incurred (if any) will become an additional cost to the Fund.
